How to use this planner

Write your habits down the left, then tick a box each day you do them. A visible streak is one of the most motivating things there is. Start with two or three habits rather than twelve — you can always add more.

- Print on Letter or A4 paper — choose “fit to page” in the print settings.
- Print as many copies of any page as you need, for as long as you use it.
- Or open it in a tablet note-taking app and write straight onto the pages.
- Start small: fill in one page today rather than planning to do all of it.
