

PRINTABLE PLANNER

Shift Worker Mood & Sleep Tracker

Notice the patterns between your sleep, energy and mood

How to use this planner

Take thirty seconds each evening to score your mood and energy and note your sleep. After a few weeks, look for patterns. This is a self-awareness tool, not a medical one — if your mood worries you, please talk to a doctor.

- Print on Letter or A4 paper — choose “fit to page” in the print settings.
- Print as many copies of any page as you need, for as long as you use it.
- Or open it in a tablet note-taking app and write straight onto the pages.
- Start small: fill in one page today rather than planning to do all of it.

DAILY

Mood and sleep log
